Introduction

This collection is an aggregation of material deposited over a period of eighteen years and represents a wide variety of the work of a solicitors' office. Seven other deposits by Messrs. Chalmers-Hunt and Baily have been made, the documents having already been catalogued as follows:

Accession 619: title deeds of former Three Colts P.H.,
Patmore Heath, Albury -
reference 82965-82991

This inventory has been arranged as far as possible according to work done for clients, except for title deeds and related documents which have their own section. Many of the papers resulting from conveyancing work have been included in the title deed section, since they offer much the same sort of information as would deeds themselves. However, papers resulting from work done for the estate agent, W.H.Lee, have because of their volume, been placed in the Business Papers section [See B127 below]
