ISLE OF WIGHT COUNTY RECORD OFFICE

ISLE OF WIGHT METHODIST RECORDS

The documents deposited under the headings 80/1 and 80/47 comprise almost all the records of Isle of Wight Methodism that are known still to exist. 80/1 was deposited by the Rev. Renouf, Superintendent of the West Wight Methodist Circuit, 80/47 by Rev. P. K. Parsons, Superintendent of the East Wight Circuit. A further deposit of West Wight material was made by Rev. A. Dodd of Totland Bay; this collection is now included with 80/1. This basic territorial division into East and West Wight, though it dates only from the Methodist unification of 1933-4, has been maintained in the scheduling of the minute and account books and miscellaneous papers.

In detail the method of scheduling adopted has been to make a distinction between local circuit records and the records of individual chapels. Below these two classes a further distinction has been made between the Wesleyan Methodists, the Bible Christians (known as United Methodists from 1909) and the Primitive Methodists.

For ease of access the registers, so often called for in the Record Office Search Room, have been listed together as MDR/-, though with the distinction between circuits and individual chapels and between the various connections still maintained.

Only one "oddity" has come to light amongst these documents, namely the United Methodist Free Church at West Cowes. The records of this congregation will be found at 80/1/226-246.

Primitive Methodism was brought to the Island from East Yorkshire - which accounts for the records of the Mission of Hull Circuit listed at 80/1/33-38 and 80/1/247-252.
