

Malvern Hills Conservators

This catalogue was digitised by The National Archives as part of the National Register of Archives digitisation project

The National Archives

PHOTOGRAPHIC INDEX

It has not been possible to produce a definitive index of these photographs; users should therefore note cross references. For example, Happy Valley appears by name under the topographical heading but other views are also to be found under: 'On the Hills; Views and Paths'; 'Encroachments' and 'Litter Bins'. Where appropriate cross references are given in italics at the end of each section.

N.B. Where items such as photocopies are not in a protective sleeve the reference number is usually on the back. Reference numbers in the left hand column are for negatives held by MHC, 'D' denotes that the original is held on disk by MHC.
