

David Vaughan, architect, agent and surveyor, of Bonvilston and of Llwynglas, Peterston-super-Ely, practised from c. 1840 to 1891 when the series of diaries and notebooks recording his professional activities cease. His assets on death were audited in September 1905, and it can, therefore, be assumed that his death occurred in that year. The present collection consists of architectural drawings covering mainly the Vale of Glamorgan, and notebooks, diaries and account books recording his professional activities.

Diaries, Account Books, Agency Papers etc.
